SUMMARY

Full Stack Web Developer with a Certificate in Web Development | Coding from Georgia Tech with a creative background in service and the Arts. Strong problem-solving skills with a keen eye for aesthetics and presentation. An excellent communicator and collaborator who works well in team-based projects and independently with very strong interpersonal skills. With each project, the aim is to provide simple robust solutions to problems specified by the client. Enthusiastically looks for and discovers connections within complex systems while thriving to see opportunity in change and uncertainty.

TECHNICAL SKILLS

React | Node.js | Express | JavaScript | jQuery | GIT | GitHub | MongoDB | Mongoose | MySQL | Sequelize | Adobe XD | Handlebars | Passport | Bcrypt | Bootstrap | Materialize | HTML | CSS | Media Queries | REST APIs | Excel | Microsoft Suite | Heroku | Command-Line | VS Code

EDUCATION

Georgia Institute of Technology, Atlanta, GA

Full Stack Web Development | Coding Certificate | 2019

A full time 12-week intensive boot camp program focused on gaining technical programming and market-driven skills in HTML5, CSS3, JavaScript, jQuery, Bootstrap, Express.js, React.js, Node.js, Database Theory, MongoDB, MySQL

PROJECTS

PetLife | Full-Stack Dev

<https://github.com/Mezran/GT-Project3-PetLife>: ||

<https://radiant-fjord-94176.herokuapp.com/>:

An app that keeps track of your pet's info regarding diet, medications, doctor visits, and petsitters. Helps keep track of upcoming doctor visits and schedules for when to give pets medication.

- **Role:** Helped design front-end in Adobe XD. Connected database to app with models and API calls. Helped design backend, server, and some routing.
- **Utilized:** HTML, CSS, JS, React, Express, Authenticated Login/Users with web tokens, Sass, Mongo/Mongoose, Axios, Bcrypt, React-router, Adobe XD, Cloudinary.

SuperMegaFanClub | Back-End Dev

https://github.com/maxwellmadewell/GTBC_Project_2: ||

<https://arcane-wildwood-00150.herokuapp.com/>

A web app that retrieves information for 4 different sports teams into one location. Choose your favorite team from Soccer, Football, Baseball, and Basketball.

- **Role:** Created data models that connected to SQL. Helped design pages on the front end. Implemented Slick into project. Established login functionality.
- **Utilized:** HTML, CSS, JS, JQuery, SportsFanDB API, SQL/Sequelize, Slick Carousels

PROJECTS Continued

React Task Manager | Sole Dev

<https://github.com/zigybass/React-Task-Manager> ||

<https://zigybass.github.io/React-Task-Manager/>

Web and mobile app that lets users add tasks to list. Tasks can include an extra details section.

Deleted tasks get moved to a new page where users can recall task if they didn't mean to delete.

- **Role:** Sole developer. Challenges I was able to overcome: managing state among App.js file and all the components and having Materialize talk to React.
- **Utilized:** React, React-Router, MaterializeCSS, Node/Express, UUID npm

Travel Guide | Full Stack Developer

<https://github.com/zigybass/Travel-Guide> || <https://zigybass.github.io/Travel-Guide/>

This app is your international travel companion. You input the city and country you're visiting and the app brings up these associated tools for that country: translation, currency, local food, and weather.

- **Role:** Built out the currency API. Made API requests and built routes to grab exchange rates. Managed and stored data for UX. Helped design front-end.
- **Utilized:** HTML, CS, JS, JQuery, OpenWeather API, CurrencyExchangeAPI, Zomato API, geolocation, Bootstrap, Slick

EXPERIENCE

A-Town A-List, Atlanta, GA

07/2015 - 04/2019

Logistics | Planning Manager

Successfully managed 8-person team while achieving objectives/goals and efficiently providing excellent customer service to each client.

- Effectively collaborated with the owner helping to reduce travel costs while maintaining group morale and safety standards.
- Successfully employed strong team-building and communication skills improving work culture and building moral.
- Diligently coordinated with new team members to efficiently train them on logistics allowing for a smooth transition and successful user and customer experience.
